Kankalay School, Port Loko

It is exactly a month since they started to work on the 2 classrooms, staff room, office and store.

Remarkable progress considering EVERYTHING is done manually, including making all the blocks. All the cement and concrete is “hand batched” (most of the guys haven’t seen a cement mixer, let alone used one). This was taken yesterday afternoon and they are just finishing concreting all the lintels ready for the roof.

Another small consignment heading to Sierra Leone

This Thursday I am off to Manor River Freight Services Lewisham with a car load of goods for Freetown. I have recently had a donation of 4 second hand team football strips from Banbury Irish FC plus I am sending a fair amount of Oxford United kit items, some toiletries, stationery and children’s toys and games

One of the football teams I support are in desperate need of footballs and boots and believe it or not both items are cheaper to buy in the UK than they are in Freetown. Each pair cost just £20 and footballs are just £5 (£18 in Freetown) . I already have a couple of pairs sponsored but if your interested in sponsoring a pair please get in touch – they are on a clearance deal so if funds permit I will buy additional pairs for future use.
